

# BakeTech Internal Proofer Conditioning Unit

*Simpler and Superior*

BakeTech's internal design provides maximum efficiency, plus we've eliminated overheating – even during summer.

Features of BakeTech's Conditioning Unit are:

- Conditioning Unit with stainless ducting mounted inside
- Temperature Range 80° F to 120° F
- Humidity range 80% to 95% relative humidity
- Digital controls with solid state probes
- Steam or electric heating coils
- Cold water spray mist provides humidity
- 20 air changes per hour
